Dalroy Defeats Coleman To Win Fastball Title

Playing at Keoma on Sunday, September 1, Coleman Dominoes were defeated 7 to 2 by the Dalroy Bearcats, thus ending the series in two straight games, as Dalroy had won 5 to 3 at Coleman on the preceding Sunday.

For the winners, experience played a leading role in defeating their younger rivals. The Bearcats fielded brilliantly to force thirteen Coleman base-runners to be left on bases. On three occasions, Bill Skura, Coleman's heavy-hitter, was deliberately walked and threatening Coleman rallies were cut short. This particular Dalroy strategy played dividends as the next batter was put out.

For the local boys, failure to hit safely when runners were on base spelled defeat. Built around Bill Skura, a speed-ball pitcher, the Dominoes proved worthy opposition to the consistent winners of Alberta Softball Titles.

In the exhibition match Dalroy won a close 9 to 8 decision as a ninth inning rally by the Bearcats spelled defeat for Alex Kovack, who had held the Dalroy club to one run in the first eight innings.

JEEPS NOW A DRUG ON THE MARKET

Frozen out of its market by the current Ottawa order reimposing rigid priority controls, Willays of Canada may have to cut off imports of its civilian "jeep" from the United States, The Financial Post is informed.

Up to July 31, it is reported, the company had been bringing these vehicles into Canada at a rate of 50 to 60 a day. When sale of cars without priority orders was banned, 175 Willays dealers and distributors had about 1,000 jeeps on hand.

Now the company faces an anomalous situation, according to a senior official. Few priority holders are willing to buy jeeps, while farmers, who want them cannot get priorities—no more are being issued.

BIG BIDS FOR NEWSPRINT

South America publishers are offering as high as \$300 a ton for newsprint, The Financial Post reports, or about four times the official United States Price. This unprecedented situation arises from two simple facts: U. S. consumption is now averaging more than 28 per cent higher than last year (24 per cent more than pre-war), while U. S. production is up only 5 per cent over 1945 (down 20 per cent from 1939), and Scandinavian countries have yet to export a ton of newsprint to the U. S. this year. Pre-war they could be counted on to supply some 300,000 tons annually to the U. S.

Men try to convert the world to their way of thinking so they can continue undisturbed in their way of living.

Drinking Water Impure

Water consumers are advised to boil all water required for drinking purposes. The latest water analysis reveals the water to be in an impure condition.

COLEMAN LIGHT & WATER CO., LTD.

CANADIANS GET NEW RATION BOOKS

Yellow-covered Ration Book No. 6 (upper right) will be the constant companion of Canadian consumers for some months to come. Distribution of the new book will take place during the week of September 9 to 16 in all parts of Canada. Upper left, three householders check over their present ration books preparatory to making out the application card at the back of each book, as shown in lower left. Lower right, volunteers at a distribution centre prepare to issue the new books.

Ration Books To Distributed September 19 and 20

At Antrobus' office from 10 a.m. to 7 p.m. Ration Book 6 will be distributed locally on Thursday and Friday, Sept. 19 and 20.

The work of distributing can be greatly facilitated if citizens will read carefully the following instructions issued from Provincial Headquarters. By doing this work the work of distribution can be done much quicker.

Read these instructions carefully: Before going to the Distributing Centre, fill in the green application card (marked RB-191) at the back of your ration book 5, giving:

1. Name and address (printed in block letters).
2. Serial No. as shown on front of ration book 5.
3. Age—if applicant is under 16 years.
4. Regular signature of ration book owner.

Do not tear the green application card out of ration book 5. This must be done by an official at the distributing centre.

TOY IDEA PAYS OFF

Two years ago Doug Blaney of Vancouver lost his patience with the way his year-old son's toys broke or fell apart. He decided to make some of aluminum for him. Today, reports The Financial Post, Blaney and his wife operate a \$30,000 toy factory which supplies parts for many eastern Canada producers.

Advertising acts as a tonic to any head of business enterprise—

MORE YOUTH WORK FACILITIES NEEDED TO CUT DELINQUENCY

Toronto—Recreation facilities for the young in Canada are vastly below minimum requirements, it was stated here by Lt. Col. J. Merritt, head of The Salvation Army Property Department for the Canadian Territory.

"The outstanding need of The Salvation Army today is for more buildings and equipment for programs aimed at the reduction of juvenile delinquency," said Col. Merritt. "Though much work among children is carried on by The Salvation Army in the form of Scouts, Guides, Boys' Bands and other group work, there is a tremendous demand for more halls which have gymnasiums and other indoor recreational features and more summer outing opportunities."

"All the recreational facilities in existence today within and outside of the Salvation Army, fall far short of what should be available to provide supervised play and hobby activities," he declared. Swarms of idle young folk roam the street, too often forming into gangs which follow the path to criminality.

"The best place to attack adult criminality is at the source—juvenile idleness leading to a search for amusement that often becomes lawless."

"Working as it does chiefly among the unchurched of the cities and rural areas, The Salvation Army today sees the great need for the extension of evangelical work, the primary activity of The Army to bring about the restoration to useful life of the strayed. Annually The Salvation Army carries its message of redemption to scores of thousands in Canada."

In its social service field, The Salvation Army operates across the Dominion 92 institutes to help people. Maintenance costs, above income, are met through public subscription.

It is hoped that this year's Home Front Appeal for \$2,000,000, to be inaugurated Sunday, September 15, will bring in funds to an amount permitting some extension of facilities.

Coleman Winners In Bellevue Flower Show

Class 117: Hand Wood Work, Industrial Section, David Hoyle, 1, 2, 3.

Class 120: Any Piece of Weaving, Fancy Work Section: David Hoyle, 1, 2, 3.

Class 122: One Embroidered Lunch Cloth, Mrs. Mary Fraser, 1.

Class 127: One Embroidered Picture Framed, Mrs. Anna Nash, 1.

Class 133: Piece of Fancy Knitting done in Wool, Mrs. Allister MacQuarrie, 3.

Class 134: Patchwork Quilt Made up, Quilting to be done by hand, Mrs. Charles MacQuarrie, 1; Mrs. Anna Nash, 2; Mrs. Mary Fraser, 3.

Judge of the Ladies Fancy Work and Culinary was Mrs. W. D. Hey, of Lethbridge, who has judged many shows in Alberta.

Mr. H. Nonnecke, horticulturist, of Lethbridge Experimental Farm Staff, was the judge of the Vegetable section.

Mr. George Climo, of Calgary, judged the flower section. Mr. Climo has done this work in many Alberta points.

Mr. and Mrs. George Fry, of Hillcrest, judged the school section and Mr. Charles Young, of Bellevue, judged the Industrial section.

The show this year had a larger entry than just with a big increase in the fancy work and culinary sections. We hope with the lifting of restrictions on sugar and cloth, silks and cottons to see these sections go further ahead next year. We would like to see many entries from school children in the show from the different towns in the Pass and these are shown with no entry fee and are taken care of in classes or age groups of 13 and under and 16 and under.

There are seven classes for school children, six in fancy work, one in cooking.

Special Prizes in Ladies section went to the following for most points: Fancy Work, Mrs. J. Radford, Bellevue, 19; Culinary, Mrs. R. Glover, Bellevue, 24.

RECRUITMENT OF TEACHERS. FOR SCHOOLS IN MANITOBA, SASKATCHEWAN AND ALBERTA

A recent meeting with the deputy ministers of education of the three prairie provinces revealed that there is a shortage of certified teachers in each of the provinces for Elementary Schools. In order to meet this shortage the respective departments of education are prepared to issue, subject to the approval of qualifications, temporary teaching permits for the period of a year to the following:

1. Personnel who are in possession of teaching certificates which have expired.
2. Personnel who have grade 12 or higher education but who have not taken teachers training. Your local national employment office will assist you and advise as to the necessary procedure of application.

TOO MANY UNIVERSITY GRADUATES

"Chancellor Gilmar of McMaster University fears we are attempting to turn out more university graduates than Canada can absorb. What is your view?" The Financial Post put that question to a number of representative Canadians and got general agreement in the reply that Canada should not limit educational opportunities but should improve on the use to which graduates are put.

Under present conditions, Chancellor Gilmar may be right. The Post was told; but every citizen should benefit by education and the important thing is to improve opportunities in Canada so we can use more university graduates. Practically all replies argue that the more education a man has, the better citizen and worker he makes. Even if we do export some brains to the United States, those exports make fine salesmen for Canada.

EXCELLENT MOTORING WEST

"A lot of eastern Canadians seem to think there is only one way to make a western motor trip and that is through the United States," observes The Financial Post in an editorial. "Many apparently don't realize that there are roads in the Dominion and that, except for one or two short stretches they are in excellent condition. It is hoped that more of them will refuse to listen to this nonsense about no roads in Canada and will follow the example of Hugh MacKenzie, general manager of John Labatt Ltd. This summer Mr. MacKenzie took his family and car by boat to Port Arthur and from there motored to Banff."

FRENCH EXPORT FROM CANADA

French Canadian book-publishing, a new industry which sprang into being during the war, is here to stay, states The Financial Post. This year it expects to produce 1,000 titles, and possibly 20 million copies, finding its best market in such European countries as France, Belgium and Switzerland.

WANT MORE IMMIGRANTS

Canada needs increased immigration, from the standpoint of prosperity, development and defense, in the opinion of a number of Canadians questioned by The Financial Post. The majority agreed that "a carefully selective policy" must be followed; some favored admitting only applicants from Northwestern Europe.

Ella Frolak Hurt In Auto Collision Sunday August 18

Miss Ella Frolak received minor injuries on Sunday, August 18 when three automobiles crashed near Colburn, U.S.A. The driver of the car in which Miss Frolak was riding was Mr. Weir and owned by Mr. Bert Friesen.

According to a report of the accident made by Deputy Sheriff Wayne Humbert, the Friesen car was headed south when it hit the left front wheel of the pickup car driven by Roy Sherman of Sandpoint, USA. The Sherman machine was over the centre of the road at the point of impact, Humbert said.

After the initial crash, the Friesen car swerved and skidded across the highway into the path of a car driven by Alvan Finney. The right front end of the Finney car struck the Canadian machine and the latter rolled over into the ditch.

Mr. and Mrs. Friesen and daughter and Miss Frolak were thrown out of the machine, but Mr. Weir stayed at the wheel. He was only slightly injured.

The Canadian car was virtually demolished.

A farewell party was held at the home of Mr. and Mrs. W. Cox on Saturday, August 18, in honor of Miss Anne McIsaac who left on Tuesday to train as a nurse in the Cranbrook Hospital. Only immediate friends were present and singing and games were enjoyed by all. A delectable lunch was served by the hostess Mrs. Cox, and the guest of honor was presented with a beautiful nurse's watch for which she thanked her friends. The party broke up after midnight with the singing of Auld Lang Syne and For She's a Jolly Good Fellow.

Her many friends wish Anne success in her new career.

Even people that are proud of where they come from don't seem to think of where they are going.

Tourist Travel

Visitors To The National Parks Show Increase This Year

A feature of this year's attendance at the National Parks is the number of visitors bringing their own camping equipment, including many automobile trailers, and making use of the campground which have been equipped for that purpose in all the National Parks. Superintendents report that these campgrounds have been used to a greater extent than ever before thus relieving the pressure on other park accommodation.

A lake in the town of Webster, Massachusetts, only two miles square is said to have the longest name in the world. It is **Lake Chargoggagoggomchauggagoggagoggahungogagumaug**. Try that with your grapefruit tomorrow morning. In the language of the Algonquin Indians it means "You fish on your side; we fish on our side; nobody fish in the middle."

Why Utah Salt Flats Chosen For Auto Speed Tests

The world's automobile speed record is held by John R. Cobb of London who, driving his **Million Red Lion**, attained a speed of 369.7 miles per hour on the salt flats near Bonneville, Utah, on Aug. 23, 1939. This course is considered more satisfactory than any other because it is smoother and its cold salt reduces the temperature in the friction-heated tires and lessens the danger of blowouts. But best of all is its 5060-foot altitude, owing to the decreased atmospheric pressure enabled Cobb to reach a speed that at sea level would have been only 314 miles per hour.—Colliers.

OUR COMPLETE SHORT STORY—

SHORT MAN

By RAE RESNICK

Copyright
Wheeler Newspaper Syndicate

JACK KERRIGAN walked into the large, bare room and nodded to his assistant, Frank. A group of men and boys were standing around, some staring at the thick mats on the floor, others waiting eagerly, impatiently, for his assistant to start things going.

Whether those men would enroll in the course depended on Frank's opening speech and their free lesson. Frank always took care of his end very well. He started the session with the same old spiel; one that would encourage every one of them to take the course no matter what his reason was for wanting to do so. Jack knew most of their reasons and tailored Frank's speech to fit them.

"The reason you're all here," Frank was saying, "is to learn the art of self defence, to learn jitsu." Frank's voice boomed on, but Jack was not listening to the routine speech. He was hearing rain and remembering last night.

Even in the rain, Jack liked walking with Millie. He liked the way she tucked her arm snugly in his, the way her curls bobbed up and down with each energetic step she took. But, most of all, he liked walking with her because she wasn't any taller than he was.

Occasionally, she turned her head to smile at him. She wasn't so at him any more, he thought. That was swell. A week ago, she had looked as though she was in his arms as though he was crushing her.

It looks as though we'll never get one," Her shoulders were hunched as though to ward off the rain. "As soon as we pass a telephone I'll try to get one."

Frank's voice crept back into his consciousness. "When you have mastered that art," Frank continued, "you will be able to protect yourself in any fight, whereas formerly the odds have been too much against you to give you a chance of winning."

Jack's thoughts went back to Millie and himself. They had come to a telephone.

She looked up and down the deserted street and had said, "I'll wait outside while you phone." But there wouldn't be a cab for fifteen minutes, he was told. He decided not to call again. Millie was alone.

Going outside, he saw a bedraggled moocher standing near her, collar turned up, watching eagerly as Millie rummaged in her purse for some change.

"Scram," he ordered the moocher authoritatively.

Barely turning his attention from Millie's searching hands, the derelict said, "In a minute."

That rankled Jack. Even the beggar wasn't afraid of him. No one had any respect for a short man. It always hurt him to have Millie see the lack of respect people had for

him. But he never missed an opportunity to show he could hold his own. Jack grabbed the man's arm, and with one swift movement, tossed him over his shoulder. "When I say something, I mean it," he said.

Millie rushed over to the man who was sprawled out on the wet pavement. "You didn't have to do that," she almost screamed at Jack. "You'd hurt a poor, helpless man, just to show off. Last week it was that man at the dance, and he didn't even do anything."

"He tried to get fresh with you," "He did not. He only asked me to dance."

He took a deep breath. "Just because he was a big guy, he thought he could cut in on my girl."

"Maybe I was your girl, but I'm not any more. Not any more. You're smaller than most men, all right—smaller inside." White with anger, she walked away.

Frank was winding up. "There is another reason why many of you want to take this course—and you needn't be ashamed of it—it is to win the admiration and love of women because of your ability to protect them. And here is the man who will help you ward that achievement, gentlemen, the best in jitsu expert in the country, Jack Kerrigan."

SPORTS STYLISTS NOTE—Something new in headgear is worn by President Truman on a visit to the U.S. naval air station, Quonset Point, R.I., during his vacation cruise. Peering out from under the brim of the white cap he possessed: "Must be the one Jimmie Byrnes lost on the way to Potsdam."

Vessels Scrapped

Famous Ships Of Grand Fleet To Be Discarded

Flagship of the Grand Fleet in 1914-16, the Iron Duke is to be scrapped at last. The dreadnought which carried Lord Jellicoe's flag at the battle of Jutland in 1916, the wreckers in 1930 when she was one of five British battleships to be discarded under the international treaty of that year. Instead of being scrapped, she was "demilitarized" and became a gunnery training vessel. Her side armor was removed, four of her 10 big guns taken away, and her speed lowered by reducing her boiler power. Now she has arrived at Faslane-on-the-Clyde to be broken up.

Until the Queen Elizabeth was completed in January of 1915, the Iron Duke class headed Britain's list of battleships. Dreadnoughts of 21,200 tons, with 12-inch armor at the waterline, they carried 10 13.5-inch guns and 12 6-inch guns. They cost about \$10,000,000 apiece. They were expertly by the Queen Elizabeths of 31,100 tons, with eight 15-inch guns and 12 6-inch guns. Today Britain's largest battleship is the Vanguard, 42,500 tons, and said to be a \$48,950,000 ship.

The Iron Duke is not the only veteran of Jutland to go to the ship scrapers this year. Last March it was officially announced that the Warspite, of the Queen Elizabeth class, was ticketed for destruction. The Warspite was terribly mauled at Jutland, but was reconstructed and was still doing her part in the Second Great War. She bombarded the Normandy beaches previous to the landing, and joined the eastern fleet in the war against the Japanese.

But the future of even modern battleships is in doubt. The atomic bomb has changed the picture of naval warfare as it has changed the picture of land warfare. The Bikini experiment showed what a single A-bomb can do. The fact is that atomic energy involves such terrific forces that the nations of the world can no longer rely upon armies or navies, but must rely on peace instead.

Preview Of Toys

Manufacturers Tell What Children May Get This Christmas

Now that the Atomic Age has invaded the play-room, father's list is bound to become more and more interesting if not nightmarish. The toy manufacturers gave a preview in Pittsburgh of what Santa Claus will probably leave in the playrooms the night before Christmas in this already too harassed year of 1946.

For Johnny the bountiful gentleman will bring a Buck Rogers death-ray pistol equipped with a shield to protect the little tyke from radio activity. Or it may be an atom-ray gun which will squirt 50 rounds of water without reloading.

For Betty the bountiful gentleman will bring a Buck Rogers death-ray pistol equipped with a shield to protect the little tyke from radio activity. Or it may be an atom-ray gun which will squirt 50 rounds of water without reloading.

WIRED FOR SOUND

Many Loudspeakers Create Constant Din At Luxembourg Palace

Luxembourg Palace is known to peace conference delegates as the site of the world's best organized uproar. It literally is wired for sound.

Throughout the luxurious building constructed for Queen Marie de Medici a widespread, almost pain-taking distribution of loudspeakers ensures an almost constant din.

If a delegate from Russia, Britain or the United States indulges in an hour-long speech, the recorded translations will haunt him long after he has finished speaking.

He will hear his words in the Assembly, in the corridors, writing rooms, bars and even in the first aid department, if he happens to go there looking for an opiate.

None but the inexperienced open a window in search of respite. In the courtyard and in adjacent streets another battery of loudspeakers shrill forth, summoning vehicles for delegates travelling to and from the building.

Some delegates, perhaps construing the universal clamor as a challenge, provide their own cacophony in the form of motorcycle escorts.

Peace—it's wonderful.

Denmark's Only Colony

Greenland, The Second Biggest Island In The World

The second biggest island in the world, most of Greenland, lies within the Arctic circle north east of Canada. It is the only Danish colonial possession. Of its area of 736,518 square miles, 705,234 square miles consist of a gigantic ice-cap and only 31,284 is ice-free land. Population, about 16,650, of whom about 400 are Danes and the rest Eskimos. The trade of Greenland is a Government monopoly.

The Eskimo is a merry, friendly people. In the winter they live in igloos, which are huts built partly underground of stones and turves and roofed with turf, and in the summer in light, portable structures. The men are the most skillful boatmen in the world in their kayaks, a kind of very light canoe made of seal-skin stretched over wood or whalebone. The women row much larger boats called umiaks which, though also made of skins, can carry up to two or three tons. The people's clothes are made of skins, and men, women, and children wear trousers. Greenland was discovered and colonized by seamen from Iceland in the tenth century.

Dress And Hat

This charming frock and hat for the teen-ager can be made by the young lady herself. Pattern 4766 has ribbon drawn through white eyelet trim. Make hat to match.

Pattern 4766 comes in sizes 10, 12, 14 and 16. Size 12, frock and hat, takes 2½ yards 39-inch fabric. Send twenty cents (20c) in stamps cannot be accepted) for this pattern. Write plain Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

The eyes of a whale are set far back and look in opposite directions. They cannot be moved to look straight ahead or behind.

FOR REDUCING DIETS

Wheat Production For Greater Comfort

Production In Europe Not Sufficient To Meet Needs

WASHINGTON — The Agriculture Department said that Europe's wheat production this year will be much larger than last—but still far short of meeting its needs.

Officials said the report indicated that Europe must continue to draw heavily upon the United States and other wheat-producing nations to meet its food needs next winter and spring.

Preliminary production estimates have been received from 12 countries which supplied about 80 per cent of Europe's wheat before the war. They indicated production this year will be about 830,000,000 bushels.

This would be about 30 per cent larger than last year's output of 647,000,000 bushels, far below a pre-war average of about 1,115,567,000 bushels. Most of the improvement will be in western Europe and the Mediterranean area.

SMILE AWHILE

Foreman—"Now, Murphy, what about carrying some bricks."

Murphy—"I ain't feelin' well, guv'nor. I'm tremblin' all over."

Foreman—"Well, then, get busy with the sieve."

"A rose for every precious year of your life" read the card enclosed with an order for two dozen flowers, the young man's birthday gift to his fiancée.

A good customer deserves extra service," thought the florist, and threw in an extra dozen roses.

The wedding has now been postponed indefinitely.

At five a.m. a four-year-old awake and asked his mother to tell him a story.

"Quiet," said mother. "Daddy will be home in half an hour and tell us both one."

Two friends were discussing a new neighbour.

"I believe Mrs. Green is a great gossip," remarked one.

"Yes," replied the other, "she has a keen sense of rumor."

Host: "Talking about Africa makes me think of the time—"

Guest: "Good gracious, you're quite right! I had no idea it was so late. Good-bye."

A city official crawled over a fence only to find himself in a pasture with a vicious-looking bull.

"Hey, there," he called to a farmer, "is this bull safe?"

"Yes," answered the farmer, "durn sight safer than you are."

"Janitor, you could cool our apartment nicely if you would run ice water through the radiators."

"Can't be done, madam."

"What did you have in them last winter?"

Junior—"Dad, do you say: 'It is me, or it is I?'"

Father—"Always remember the rhyme: 'It is I, said the spider to the fly.'"

Junior—"I see, but couldn't you say: 'It is me, said the spider to the flea?'"

Lady of the House: "Norah, the window in your room is so dirty you can't see out of it."

Norah: "But, madam, when I want to look out I open it."

"How did Light-fingered Fred get caught?"

"He's getting short-sighted—thought he was turning the knob of a safe and tuned in to 'Music Hall.'"

Officer: "Is this gun working?" Rookie in Field Artillery: "No, sir. It's discharged."

"I had an awful headache last night."

"Yes, I saw you with her."

"I understand your sister told you I was a musician?"

"Well, she said you blow your own trumpet."

Speed Fiend: "It's great speeding along like this. Don't you feel glad you're alive?"

Passenger: "Glad isn't the word, I'm amazed."

Since the Japanese surrender, a total of 3366 long tons of crude rubber have been exported from the Netherlands East Indies.

Illinois Central Railroad Plans More Up-To-Date Service

Railroad car doors will open at the touch of a finger... coach seats will be designed scientifically... and the old-fashioned upper or lower berth will give way to the roomette.

This was the prospect drawn for the Kiwanis Club in Chicago as G. G. Truesdale, assistant passenger traffic manager of the Illinois Central Railroad, discussed the future of railroading at a luncheon meeting.

Sketching the development of the roads since the industry pioneers first threw a ribbon of steel across the continent, Truesdale predicted greater speed, comfort and safety at lower cost.

The Illinois Central, he said, in now awaiting delivery of the first all-electric dining-car—complete with generator, driven by the car wheels and capable of supplying power for everything from the car's stoves to its air-conditioning system.

While streamliners will zip along with either diesel-electric or improved steam locomotives, the customers will be able to relax in seats designed by Prof. E. O. Hooton, head of Harvard University's anthropology department.

The roomettes which will supplant open-section berths will have private toilet facilities, heat-resistant glass in the windows and chimel to call the porter.

When your BACK ACHES...

Backache is often caused by lary kidney action. When kidneys get out of order excess acids and poisons remain in the system. Then backache, headache, rheumatic pain, disturbed rest or the 'tired out' feeling may soon follow. To help keep your kidneys working properly—use Dodd's Kidney Pills.

Time-tested, popular, safe, non-habit-forming. "Dodd's Kidney Pills," in the blue box with the red label. Sold everywhere. 115

Still Go Aloft

Barrage Balloons Fly Over Chelsea In Radio Wave Tests

A London letter in the Ottawa Journal, says: Londoners have already forgotten what a barrage balloon looks like. But not the people of artistic Bohemian Chelsea. Every six hours of the day it goes a barrage balloon above the picturesque and slightly grimy roofs of that Carlyan suburb, and even Chelsea folks wonder why. Groomed and manned by R.A.F. personnel, the balloon is used to test experiments with ultra-short radio waves. It is a sort of aerial annex to the BBC.

A problem often debated but never solved used to be the altitude at which our wartime barrage balloons were flown. That was a close official secret for obvious reasons. But it throws some light on the problem that the Chelsea radio balloon, carrying instruments to register barometric pressure, temperature and humidity, attains a height of 1500 feet, readings being taken every 200 feet up.

Popular estimates during the war, as to the balloon altitude, varied by miles. But it is difficult of judge objects overhead. Try asking someone who does not know how far off the Moon is.

If you burn your finger, it takes only about eight one-thousandths of a second for your brain to be told about it.

YELLOWKNIFE IS A "REMOTE" AREA

by Edna Jaques

On a recent trip to Yellowknife I found out just how effectively rationing works and what a blessing it is to people in those far away places where there is NO rationing.

Take canned milk for instance. You see, there isn't a cow within 500 miles of Yellowknife. Children born there know what a cow looks like only from the pictures in the story books or the funnies. But they have canned milk by the case. One reason why canned milk is rationed in some districts in Canada is to enable people living in these remote areas to have this vitally necessary food.

Missionaries living in the Arctic have blessed the controlled distribution of canned milk so that they can have it, not only for their own use but for their missions. Prospector scouring the far north for gold and precious minerals have smacked their lips over a cup of hot coffee with canned milk beside a lonely camp fire in the evening. Mothers are thankful for canned milk for their children's cereal, while hospitals use it exclusively in the north.

And sugar! In Yellowknife the sugar has to come by barge from Watways, a distance of more than a thousand miles, before it reaches the stores there. As this watway is open only four months of the year, naturally the whole year's supply has to be brought in during the summer. Rationing couldn't be used there. But they get the protection of our rationing and declare that without rationed sugar in the more settled areas they couldn't live up there at all.

Meat—the same. The meat comes by water during the summer months, in refrigerator barges, pushed by paddle steamers. Hardly a day passes in the summer without a barge appearing to unload meat at the Con dock for the use, not only of the miners, but the settlement as well.

With syrup, molasses, jams or preserves sent to the North West Territories, the housewife can vary her cooking because fresh fruits and vegetables are extremely scarce and almost prohibitive in price, as they have to come by plane from Edmonton.

So, rationing is a good thing all round. It not only protects us as well by guaranteeing them supplies of goods necessary to keep them well during the dark months of the winter when daylight is something you remember, but do not see.

The new ration book No. 6 will be available between September 9 and 16. It is up to Canadians to get their own books at the place designated by the Local Ration Board and announced in the daily and weekly newspapers.

Money can't buy the new ration books. Even a millionaire can't get more than one. The ration book is everybody's guarantee that he will get his share of goods in short supply. Twelve million brand new ration books are ready for distribution.

WAR NOT ALL OVER UNTIL END OF YEAR FOR SALVATION ARMY

Toronto.—Not until the end of this year will the war be over for The Salvation Army, according to Commissioner Benjamin Orames, Territorial Commander for Canada.

While the work for the armed forces ended in Canada in June 30, some Salvation Army supervisors will remain in the field overseas at least until September 30. Completion of administrative work in connection with the operation of The Salvation Army Red Shield War Services is expected to take until December 31.

The Salvation Army became the only Canadian Auxiliary Service carrying on field operations on July 31 when the other organizations turned over their activities.

Since hostilities ended, Salvation Army members serving either in the armed forces or as supervisors have been trickling back to Canada and The Salvation Army has been steadily increasing home front operations that were diminished because of loss of personnel to war activities. The Salvation Army volunteered its services before the war started.

A major outcome of wartime activities has been that large numbers of ex-servicemen who encountered Salvationists at training centres here and on active service have turned to Salvation Army representatives for help and guid-

ance, said Commissioner Orames.

To restore The Army to full-time home front operations and carry out long-deferred expansions of facilities and services, the Home Front Appeal for \$2,000,000 opens across Canada Monday, September 16.

Teen Town Notes (Millie Bubniak)

Rina is back in Coleman after spending a very pleasant holiday in Fernie and wishing Labor Day hadn't come so soon.

Millie was very disappointed when Ferstay's Bus wasn't on hand to bring a certain person to Fernie on Labor Day. However the Greyhound didn't let her down.

Many grim faces seen making their way to school on Tuesday morning and Alice standing in the sidelines saying, "O, to be young again."

Stanley has made up his mind he is going to attend Business College this year. Wonder why he chose Calgary.

Frank G. seems to be spending his weekends in Fernie quite often lately.

When Julius saw the scales rise to 165 lbs as soon as he got on them he said, "Gee I'd better stop working so hard."

Vicky renewing old acquaintances at the dance on Saturday night.

We think Arden is going to enjoy going to school in Coleman with girls like Ethel, Vicky and Joanna around all the time.

Now that Ella has met a certain person from Blairmore she hates to think of leaving Coleman in a month's time.

THEATRE NOTES

PLAYING AT COLE'S THEATRE
IN BELLEVUE ON SATURDAY
AND MONDAY

Every woman is born with glamour. It is inherent in her sex. But glamour must be developed—as a diamond must be polished to bring out sparkle.

Clean teeth, clean hands, clean face are, of course, essentials. Most women do make this much effort. But they shouldn't stop with only half their potential sparkle. They can't stand competition from women who try harder.

I happen to play a French girl in my present Universal picture, "This Love of Ours," which is now at Cole's theatre.

The script writer, in describing my character, stated I should appear soignée.

This is the word for glamour used by the French. So take a tip from the French. They've been dealing in glamour much longer than Hollywood.

In Memoriam

MAKIN—In Loving Memory of Mr. J. W. Makin who passed away at Hillcrest on September 7, 1943. Nothing can ever take away. The love a heart holds dear. Fond memories linger every day. Remembrance keeps him near. Sadly missed by his sister, brother and family of Coleman.

LOCAL NEWS

Wilma, son and daughter of Rev. and Mrs. W. Grazier are visiting their parents.

Mr. and Mrs. L. Bubniak and family were Fernie visitors over the week end.

Mrs. D. Davies, Doris and Megan, of Edmonton, are visiting with Mr. and Mrs. F. Cox.

Miss Mary Hopkins is in the local hospital due to injuries received a few days ago.

Mrs. T. Parry of Calgary is visiting her son and daughter-in-law, Mr. and Mrs. R. Parry.

Mrs. F. Celli and family left today for Radium Hot Springs where they will join Mr. Celli.

Mr. and Mrs. Tom Bartley and Mr. and Mrs. J. Anderson and son are visitors in Calgary.

Frank Graham and family returned on Sunday after spending two weeks vacation at Balfour, BC.

Zak's Grocery has taken delivery of two Ford delivery trucks. One from Sentinel Motors and the other from Pincher Creek.

Jo Jo Zak was the lucky winner of an electric steam iron in the draw held at Fernie on Labor Day. Mr. Keith Grazier and sister

Mr. and Mrs. K. Blaine and family and Mr. and Mrs. E. Hutton and family of Kimberley, BC, were the guests of Mr. and Mrs. J. Nash over the week end.

Mr. Joe Potetz who is taking a course in plumbing under the DVA in Calgary spent the week end with his wife Mrs. J. Potetz (nee Alma D'Appolina).

Misses Pat Willets and Joan Lloyd returned on Monday after spending the week end on the ranch of Mr. and Mrs. T. M. Brown, Spring Point.

Mr. and Mrs. K. S. Smith and daughter Patsy, of Greenville, Illinois, U.S.A., were the guests last week of Mr. and Mrs. T. Holstead. Mr. and Mrs. Smith are enroute to Banff where they will attend the Banker's Life Insurance Convention to be held this week.

Miss Audrey Holstead returned on Monday after spending the summer vacation at the ranch of her grandparents, Mr. and Mrs. T. M. Brown, of Spring Point. On Sunday, Audrey entertained twenty-two of her young friends at a farewell party. A horse-back ride into the hills, and a picnic and games were enjoyed by all.

WEDDINGS

PISONY—LUCKY

A very pretty wedding took place on Saturday, August 24, in the Holy Ghost church when Pauline Lucky, the youngest daughter of Mr. and Mrs. J. Lucky, of Coleman, was united in marriage to Peter Pisony, youngest son of Mr. J. Pisony and the late Mrs. Pisony, of Michel, BC, Rev. Father Harrington, of Blainmore officiating.

The bride entered the church, on the arm of her father looked very lovely in a floor length, gown of white satin with sweetheart coronet and net veil. She carried a bouquet of white roses and wore a gold cross, a gift of the groom.

Her only bridesmaid, Martha Balak, of Coleman, chose a pink

sheer gown with matching chapel veil and carried a bouquet of pink carnations. The groom was attended by John Tytsensky, of Coleman. After the ceremony a reception was held at the home of the bride. The table was beautifully decorated and centred with a three-tier cake. The happy young couple will take up residence in Michel where the groom is employed.

SHOWERS

A very lovely shower was held in the Italian hall on Tuesday, September 3, in honor of Mrs. M. Savage, (nee Lottie Nicholas). Whist and bingo were played with the prizes going to Mrs. N. Nicholas, Mrs. O. Smith, and the consolation to Mrs. Masharino. The bean guessing contest was won by Mrs. J. Wilkie. A very tasty luncheon was served by the hostesses, Mrs. C. Rinaldi, Mrs. Sam Sagoff, Mrs. J. Morrison, Mrs. J. Price and Misses Anne Dudy, Adele Church and Ann Salus. The honored guest was presented with a decorated basket-full of gifts by Mrs. J. Price for which she ably thanked her many friends.

On Wednesday, Sept. 4, in the 100F hall, a miscellaneous shower was held in honor of Miss Elsie Rypien, bride-elect. About 70 guests enjoyed an evening of whist and bingo, honors going to Mrs. P. Ryan and Mrs. F. Siska and consolation prize to Christine Bubniak. Bingo prizes were won by Mrs. L. Moore and Mrs. A. DeLuca. A dainty lunch was served by the hostesses and the guest of honor was the recipient of many useful and beautiful gifts for which she ably thanked her many friends. The party broke up about midnight.

A World History Book

MANY OF THE PRESENT DIFFICULTIES existing between nations are no doubt to some extent due to difference in language and in viewpoint. Mrs. Eleanor Roosevelt has expressed the opinion that differences in language form one of the greatest menaces to complete international accord, and during his years as Prime Minister of Britain, Winston Churchill expressed the same thought. There have been many proposals for the setting up of an international language, and if this could be accomplished it would no doubt prove to be of great benefit. Another proposal which has been discussed on various occasions, concerns the introduction of a uniform history book to be used in every country of the world.

Would Learn Some Facts

The latest organization to bring this matter before the public is the American National Education Association. This association, at its recent annual meeting, discussed the possibility of a world history text-book, compiled by an international panel of historians, "to be published in all languages and used in every nation." Among the advantages of such a book were those expressed by one speaker who said: "Our children would be learning the same facts about Russia that English, French and German children learn about her, and Russia would be learning the same facts about us that her European neighbors do." It was agreed that the world history book would be supplemented by the regular history courses of the country in which it was used.

Great Need For Better Basis

It is apparent from the events which have followed the end of the Second World War, that there is great need for a better basis of understanding between nations. It is difficult to comprehend why people who fought so splendidly together for a common cause, should find themselves divided on many issues in time of peace. World leaders would do well to consider the proposals of educators and others who advocate the spreading of greater understanding through an international language and international history texts. These are only two of many plans for eliminating the barriers between nations in the hope of preventing future wars, but no factor should be overlooked in our efforts to find a basis for permanent world peace.

Flying Farmers

Take To The Air To Look After
Their Crops

TORONTO. — Flying farmers are the latest post-war phenomenon. Three of them arrived at Toronto's Malton airport from the southwestern United States to describe their work over a national radio network. Horace Watson of Oklahoma, president of the National Flying Farmers Association, Gale Rogers of Yuma, Cal., and Hal Renollett of Denver, Col., and Hal Renollett of Denver, flying was the only way to look after a farm—to dust the crops, check the cattle, supervise the fencing and ship the crops.

PILOTS AT FIFTY

Aviation News says airplane pilots can be pilots longer if they "live right". In 1945, 13 air lines had 29 first pilots and nine supervising pilots over 50 years of age. Dr. Ross A. McFarland, testifying before the White House fact finding board on pilot wages, said that with proper diet and exercise, and moderation in use of alcohol and tobacco, many pilots stretch their careers to 50.

British War College

To Produce A New Type Of Army
Officers

LONDON. — The War Office announced the establishment of a new British war college to double the pre-war output of army officers, give them a rounded education in world affairs and get rid of hard-drinking, long-talking "Colonel Blimps".

"Too many people," said Col. M. S. K. Maunsell, chief military instructor, "still consider the typical British officer as a man who thinks his mouth is for two things—to drink alcohol and tell long tedious stories about Poona."

"One of our main objects," he added, "is to make quite certain that when the future officer leaves Sandhurst there is the maximum chance of his becoming a Major Munday or Colonel Chumstead."

Munday, Chumstead and Blimp were obese British cartoon characters portraying war officer bumbling. Before the war, Sandhurst and Woolwich, its companion officers training school, turned out 400 officers a year. Field Marshal Viscount Montgomery, new Chief of the Imperial General Staff, wants 850.

An 18-month basic training curriculum will stress "the human factor, man management and the psychology of the soldier."

Held To Be Quite Popular For
Active Service

"Battle rompers" may be all right for active service but if the Canadian army wants to attract recruits, particularly to reserve units, it should revert to kilted regiments, Maj. Leslie Mutch (L. Winnipeg South) said in the Commons.

Major Mutch, who in the early days of the war was his kilt in the House, said it was not enough that men should be allowed to wear kilts for walking out dress.

"There's something about it that appeals to those with Scotch blood; that every one else laughs at; that every one admires and that every one tries to crawl into when the time comes to recruit," he said.

NORTHERN AIR TRAFFIC

Development of air travel into the northland, to make available to tourists the sport fishing possibilities of that section of the province, was recommended to the Saskatchewan Royal Commission on Fish by Alex Aitken, commissioner of the Regina Board of Trade. With roads into the north country poor, Mr. Aitken thought the best solution was development of air travel. Landing strips for land planes should be built at Prince Albert National Park, he said.

Cinnabar belongs to the mineral kingdom and is the chief ore of mercury.

Price Control And Rationing Information

Q.—Will all the coupons in ration book five be declared valid?

A.—No, all coupons in ration book five will not be declared valid. Coupons Q5 to Q25, and R22 to R50, inclusive, will not be used. When all valid coupons in ration book five have been used, the book should be destroyed.

Q.—Is there still a price ceiling on all motor vehicles?

A.—Yes, all motor vehicles have a definite price ceiling. If you contact your nearest Wartime Prices and Trade Board office, full details will be given.

Q.—Will you kindly tell me the number of coupons included in ration book six?

A.—In Ration book six there should be two sheets of "B" coupons for butter, two sheets of "M" coupons for meat and two sheets of "S" coupons for sugar. There are also three sheets of spare coupons, namely "X", "Y" and "Z". Each sheet in the ration book is made up with 25 coupons. Check your new book, and, if it is not correct, contact your local ration board.

Q.—Should my name and address be written on each page of the new ration book?

A.—There is a space left on each page on ration book six where you should fill in your name and address.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your coupon prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

CAMERA "GHOSTS"

An American cameraman has invented a new way of giving that shimmering effect to "ghosts" and the like. An electric heater is placed beneath the camera lens, so that warm air masses ascending from the heater disturb the atmosphere and thus give a tremulous appearance to everything within camera range. The effect will be similar to that seen on hot summer days, when the intense heat reflected from the roads make them appear to wobble.

A camel walks at the rate of about two and a half miles an hour.

Green Cross
DDT FLOWER SPRAY

A completely new and modern DDT formulation developed by "Green Cross" for pest control on garden and house plants. Tests show excellent control against rose leaf roller, chrysanthemum thrips and aphids, rose aphids, greenhouse leaf miner larvae, glasshouse thrips, and other pests. In 1 oz., 5 oz. and 16 oz. bottles.

Answer To Last Week's Puzzle

Venture Was Success

Woman With No Experience Has
Fine Farm In B.C.

VANCOUVER.—Mrs. Elmer Glaspie, slim, dark-haired and dynamic, with no previous agricultural background, bought a farm.

But that was six years ago, and now, what had started out as one farm, has grown to a corporation of three—Fairmeade Farms Ltd., and occupies 350 acres in nearby Langley Prairie.

Today, she spends six months of the year on the farms, of which she is president, and most of her weekends the rest of the year. She has 200 head of the finest cattle in a district noted for its fine cattle, a herd which boasts 175 championships.

The old farm house which used to stand on the property, has disappeared in favor of a modern home, complete with swimming pool.

But it wasn't enough to breed championship cattle, Mrs. Glaspie recently purchased a number of Kentucky thoroughbred horses which are being trained for high school equestrian exhibitions under the direction of Major George Griffin, formerly of the R.C.M.P.

Outmoded Now

But Parlor Organ Was Once Centre
Of Family Life

Apparently the old-fashioned parlor organ has gone to join a lot of other things that stand for an outmoded way of living.

A generation ago the parlor organ was a treasured part of the family and no family was complete until the organ was acquired, often with considerable sacrifice and hard work. It brought happiness into the home and also a certain social status for which nothing else had just the same standing. On a cold winter's night or on a Sunday afternoon or evening, mother or sister would sit at the organ and play all the old favorite tunes—"Sweet Genevieve", "Seeing Nellie Home", "Nearer My God To Thee", "Rock of Ages", "Silver Threads Among the Gold", and so on.

It may not have been the great music we hear on the radios of today, but the family sang the old folk songs, beloved Christmas carols, the tender hymns and here was Home Sweet Home and everything and everyone seemed safe and secure. The radio typically represents modern living, the old parlor organ something fine that we have lost—and nobody cares but the tired old has-beens who are just as "queer" as the old organs—Hanover Post.

Changing Fire Colors

Caused By Air Supply And The
Escape Of Different Gases

The fire changes color partly owing to variations in its air supply, and partly owing to the escape of different gases from the coal. The burning is due to the oxygen, and the more oxygen supplied, the more brightly and rapidly will the fire burn. If there is an excess of oxygen, a great deal of carbon monoxide is formed, and this burns with the blue flame often seen in fiercely burning fires.

It must be remembered that different substances and gases have their own color when burning, and coal contains, besides carbon, various minerals substances and sulphur gases, all of which affect the color of the fire in some way.

In early England coins sometimes were cut in halves or quarters to make change.

Make this 30-day test!

Kellogg's Bran Flakes are delicious. In a recent survey Canadian housewives voted Kellogg's 3 to 1 in favour over any other brand.

1. If you're really ill, see your doctor! But if you just feel dull and head-ache, you may only be suffering from incomplete elimination. Especially if you're over 35, here's how one simple change of diet can help you keep fit!

2. Start now to eat Kellogg's Bran Flakes every morning. If you want to keep feeling fit, the natural way, get more of the "bulk" your system needs by eating delicious, gently-laxative Kellogg's Bran Flakes With Other Parts Of Wheat.

3. Just thirty days should prove to you how grand it is to feel alert, to have the energy for all the extra things you'd like to do. You'll want to go on keeping fit the Kellogg way!

Bran Flakes, Pap, Corn Flakes, All-Bran, Rice Krispies, Krumbs and All-Wheat are all made by Kellogg's, the greatest name in cereals.

SAVE TIME...SAVE FUEL...SAVE FOOD!

Swims Ten Miles

Returns For Boat

Former swimming champion John Powell, 34, saved his life by swimming for six and one-half hours to cover the 10 miles to shore when his sailboat overturned in Lake Erie. He started out after clinging to the boat for two and one-half hours and dragged himself up on the beach at Turkey Point.

Suffering no ill effects from his endurance effort, Powell spent two days looking for the 16-foot sailboat he abandoned 10 miles out in Lake Erie when it capsized. He found the \$400 boat only four miles from where he left it, and is shown sailing it home.

The World's Needy

UNRRA Has Saved Lives Of Millions
In Many Countries

Since its formation in November, 1945, the United Nations Relief and Rehabilitation Administration has shipped 13,000,000 tons of supplies worth \$2,837,000,000 to the stricken countries of the world. In addition to distributing food, clothing and medical, agricultural and industrial equipment, it has taken care of displaced persons and initiated a public health program. UNRRA itself believes it has "saved the lives of at least 5,000,000 people in Yugoslavia, 3,000,000 in Czechoslovakia, 5,000,000 in Greece, 2,000,000 in Poland and uncounted numbers in China"—in addition to alleviating the misery of millions of others throughout the world. New York Times.

STILL ENJOYS LIFE

The Toronto Star says a man who enjoys life and the work of his profession at the age of 95 is a rarity. Such a man is J. R. Roaf, K.C., of Toronto, who is at his law office daily between 10 o'clock and 4:30 o'clock. He thinks he is taking things easy when he has Wednesday afternoon off.

An iron ship built in 1848 and having engines dating from 1869 was still in use in British waters in a recent year.

Declining Population

Say It Is Decreasing In Germany At
A Rapid Rate

The German population of Europe today—now estimated at 72,900,000—will decrease by 50 per cent. within the next 50 years, Prof. Heinz Sauerbaum, a noted German economist, predicts.

The present death rate in Germany is far outstripping the birth rate, Prof. Sauerbaum pointed out in an analysis of Germany's rapidly decreasing population. This development will have serious political and economic implications for the future of Europe.

Prof. Sauerbaum disclosed that at present "in the rural districts of Germany the death rate is twice as high as the birth rate; in the medium-sized cities the death rate is 300 per cent. higher, and in the large cities it is 400 to 500 per cent. higher than the birth rate."

GEMS OF THOUGHT

ENRICHING THE NATURE

Every man feels instinctively that all the beautiful sentiments in the world weigh less than a single lovely action.—J. R. Lowell.

It is not enough to have great qualities, one must make good use of them.—La Rochefoucauld.

Good, the more communicated, the more abundant grows.—Milton.

Any one may do a casual act of good-nature; but a continuation of them shows it a part of the temperament.—Stearns.

Human affection is not poured forth vainly, even though it meet no return. Love enriches the nature, enlarging, purifying, and elevating it.—Mary Baker Eddy.

Serene will be our days and bright, And happy will our nature be.

When love is an unerring light, And joy its own security.

—Wordsworth.

INCREDIBLY PATIENT

With some bamboo fibres, and a few pieces of metal, the Chinese have drilled salt wells over one thousand feet deep; but it took from eighty to one hundred years of patient drilling. Great-grandfather began the task, and worked hard at it; grandfather and his children continued the work, and finally great-grandson and his family reached salt and, at last, affluence. Water had to be carried two miles uphill and poured down the well every day, but it was done. The Burma Road was built mainly by hand labour. Without question, the people of China are incredibly patient.

A variety known as "creeping apples" in Siberia produces more than 150 pounds of fruit per tree—after winters of 32 below zero.

IRRIGATION DEVELOPMENT PLANNED FOR ALBERTA INVOLVING A HUGE SUM

LETHBRIDGE.—Broad plans for future water conservation and irrigation development in Southern Alberta involving millions of dollars and which could carry water to hundreds of thousands of acres of now semi-arid land were discussed in the first session of a conference being held under the auspices of the Southern Alberta Water Conservation Council.

George Spence of Regina, director of the Prairie Farm Rehabilitation Administration, reviewed the southern Alberta program of P.F.R.A. stressed the acceptance now given to the policy of capital costs of irrigation being borne by governments rather than by the projects themselves, the start made on the St. Mary river dam project at Spring Coulee and the progress of the work on the east Pot Hole Coulee dam near McGrath.

Because of a series of delays, the Pot Hole Coulee dam job would not be completed this year as had been hoped, he said. But good headway had been made.

The meeting was almost unanimously agreed that every effort should be made to urge upon the federal and provincial governments the need for a definite agreement on allocation of costs in connection with future irrigation development. Some speakers said the breakdown of the recent Dominion-provincial conference had delayed such an agreement but the imperative need of a joint understanding was stressed.

FOR NORTHLAND

Saskatchewan's Natural Resources Department To Have Better Radio Service

PRINCE ALBERT, Sask.—Ronald Hook, radio engineer for the provincial department of natural resources, said an improved radio communication service permitting communications from a departmental control room here to its 80 ground stations in northern Saskatchewan will be in operation in a few months.

"By simply manipulating switches in the control room, officials of the department will be able to come into almost instantaneous communication with any of the field staff," Mr. Hook said.

One reason for the change is to improve the efficiency of the forest fire fighting service. The ground stations which include lookout towers are linked to field men carrying portable radio sets and as a result of the improved radio communication system there will be speedier action in fire suppression in the important stages.

Constant communication also will be maintained with the department's radio-equipped planes.

GOT AUTOGRAPH

Lucky Edmonton Boy Obtained Field Marshal Alexander's Signature

EDMONTON.—Fourteen-year-old Laurie Hodgson is one of the happiest youngsters in Edmonton and the envy of all his playmates.

Not only did he get a front row view of Canada's new governor-general during his Edmonton visit, but he is also the proud possessor of Field Marshal Alexander's autograph.

When Laurie spotted the vice-regal party he tossed untidily to the winds, stepped up to the governor-general and asked him to sign his autograph album. The field marshal graciously consented and signed his name, "Alexander, F.M." over the entire page.

SECOND MILITARY EXERCISE IN CANADA'S NORTHLAND IS NOW UNDER WAY

EDMONTON.—Operation North, Canada's second military exercise in her vast northland within four months, was under way along the vital Alaska highway lifeline, and the Dominion's western army commander-in-chief bluntly said it was designed "as a start in getting us thinking in terms of defence of our country."

Unlike the snow-jeep Operation Muskox across the snowy wastes from Churchill, Man., to Edmonton last May, Operation North will proceed northward along the Alaska highway in a 50-truck convoy to the White Horse area. It is expected back early next month when its reserve army officers and 50 ranks will be asked for ideas on what Canada might do about her northern defences in case of attack.

Maj.-Gen. F. F. Worthington, commanding general of the Dominion's western army command, made this plan in a spirited briefing to his officers before the take-off for Dawson Creek, B.C. He asked them to "attack this operation as free think-

SMUTS TRIES AGAIN—Only statesman among the representatives of 21 nations at the Paris peace conference who was also at the Versailles talks, Field-Marshal Jan Smuts, prime minister of South Africa, has taken his seat at the conference chamber.

JUST EXPERIMENT

Doctors Trying Atomic Medicine On Three-Year-Old Child

BOSTON.—The last of three doses of a by-product of death-dealing atomic energy has been given a three-year-old child in an experiment to keep her alive.

Little Janice Moschella applied rare radio-activated phosphorus—prepared on the University of Illinois cyclotron—shortly after doctors gave her a blood transfusion to keep her from succumbing from a malignant infection of the liver.

Meanwhile, Dr. Saul Hertz, Boston specialist, said it would be about three weeks before the results of the first publicized attempt to cure with atomic energy will be known.

PURCHASING FLEET

Turkey Is Planning To Buy Some Ships From Canada

CALGARY.—The Turkish government plans to purchase a fleet of 21 vessels from Canada and the United States and the war-converted Canadian National Steamships Prince David and Prince Robert have been inspected and will be given consideration, Stuart Gogen, marine superintendent for the Turkish state shipping lines and port administrator at Istanbul, said.

Capt. Gogen passed through Calgary en route to New York. He is one of eight men sent to North America by the Turkish government to purchase or have constructed ships and railroad equipment for his government.

PLANS LONG VOYAGE

GLOUCESTER, England.—P. W. Horwood, Worcester boat builder, is busy putting the finishing touches to a 65-foot yawl which he plans to sail from Gloucester to Australia. He hopes to make the trip in four months but is prepared to take 10 months for the 15,000-mile voyage.

WANTS QUIET JOB

BOSTON.—A former German prisoner of war, seeking peace and solitude, has applied for a job as a light-house keeper in Boston harbor. Richard Bohnenstengel of Schleswig-Holstein wrote authorities that he passed through the port of Boston as a prisoner and would like the job.

PORT CHURCHILL

Says This Sea Route Is Second To None

SASKATOON.—Officers of the British cargo vessels at Port Churchill were amazed to find that information provided by British port officials was misleading. Frank Eliason of Saskatoon, chairman of the Hudson Bay Route Association, said on his return from Churchill.

"One officer showed us British shipping journals which contained stories regarding the sailing of 15 ships for Port Churchill, describing it as 'one of the most hazardous trips ever attempted in modern times.'"

"That was back in 1932, but apparently very little up-to-date information was supplied these men," Mr. Eliason declared.

"Officers told me that they were prepared to enter Churchill at any time for the port was second to none on the continent."

LABOR SHORTAGE

Unable To Secure Loggers On British Columbia Coast

VANCOUVER.—Shortage of loggers in forests along the British Columbia coast is critical, John Burke, secretary-manager of the B.C. Loggers' Association, said here.

Declaring the shortage is more critical than in the war years, Mr. Burke said upwards of 2,000 to 3,000 return to the woods immediately, 1946 production may fall below that of 1945.

An employment agency operator said "even big pay" in logging operations fails to tempt men. Woods workers were given a 15-cent hourly wage boost in June.

He said three factors keeping men out of the woods are attractions of city life, salmon fishing and ability to live on war service gratuities.

HOUSE GUARDED

Churchill Family Being Protected While On Holiday In Switzerland

BURSINEL, Switzerland.—Treetop police are guarding Winston Churchill, who arrived here for a holiday with his wife, his daughters Mary and Diana and his son-in-law Duncan Sandys.

Two policemen are stationed in lookout posts on top of the highest fir tree in a park surrounding the lakeside "Villa Chistol," where the Churchill family is staying.

A Swiss army launch cruises on the lake to keep off "invaders."

HE STAYED AWAY—Hand to his head at the Paris peace conference is Andrei Vishinsky, Soviet vice foreign minister, who threw the meeting into an uproar when he charged U.S. Secretary of State James F. Byrnes with insulting Russia when his attempt to speak was blocked.

CHINA'S CIVIL WAR

Surprise Blow At Railway Lifeline Carries Fighting Into Manchuria

PEIPING.—Fighting flared in long-quiet Manchuria where Chinese Communists struck a surprise blow at the government railway lifeline from Mukden to Changchun, the capital, independent dispatches said.

Rival armies were reported on the march to battle positions in the vast and vital territory as new clashes broke out in eastern Jehol province, on Manchuria's west flank.

The surprise blow fell near Tieling, 45 miles northeast of Mukden, where the government garrison 10 miles outside the city was surrounded by Communist troops.

Reinforcements moved north out of Mukden and south from Changchun to the rescue of the besieged garrison.

The reports pressed carried a variety of reports indicating that soon the civil conflict, confined in recent weeks to north China, might sweep over Manchuria.

Government military observers in Peiping predicted that fighting soon would break out on the southern section of the Changchun railroad south of Mukden, where the Communists are becoming active.

BIG FOUR REJECTS PLAN OF AUSTRALIA FOR REPARATIONS ON FORMER ENEMY COUNTRIES

PARIS.—Australia's proposal to limit reparations levied on former enemy countries to their "reasonable capacity to pay" and delay action until a special commission made studies was voted down in a peace-conference commission after three days of arguments.

Britain, the United States and France lined up with Russia against the measure—beaten by a vote of 15 to 2, with three abstentions—which provoked long, angry debates. Earlier in the day, Australia withdrew an identical amendment offered for inclusion in the Roman treaty.

Only Australia and New Zealand voted in favor of the proposal, Canada, South Africa and The Netherlands abstained.

The vote came after Andrei I. Vishinsky, deputy Soviet foreign minister, declared that reparations were "a cornerstone of the peace treaties," and warned that further delay in investigating war-damage claims would mean "postponing the peace conference."

AN IMMIGRATION POLICY IS RECEIVING CONSIDERATION BY CANADIAN GOVERNMENT

OTTAWA.—The Canadian government is aware that it must enunciate an immigration policy and a sub-committee of the cabinet is now working on the formation of such a policy. Hon. J. A. Gray, minister of resources told the house of commons.

In addition, an inter-departmental committee of "high-ranking government officers" is studying different questions dealing with immigration and it will advise the cabinet in the preparation of the Dominion's immigration policy, said the minister.

The government was being urged in some quarters to promote selective immigration and at the same time was being advised that there should be no discrimination.

"I do not see," he said, "how we can have selective immigration without discrimination."

In regard to refugees he said this was an international problem in which Canada would share through the United Nations organization.

which would be meeting in September. He presumed that Canada would be asked to take her share of the refugees and stateless persons of Europe and would have to assume her obligations as a member of the United Nations.

Referring to British immigrants the minister said anyone who went to the department's offices in England and had the medical inspection could come to Canada provided settlement conditions in this country were satisfactory and if—a big "if"—they could get transportation.

Mr. Glen emphasized the shortage of shipping. He pointed out there were still many thousands of servicemen and dependents of servicemen to be brought to Canada from overseas, who rightly had priority with regard to shipping space.

Accordingly he did not think it was likely that in the next two months there would be any degree of transportation of immigrants to Canada from the continent. As for the British Isles there were many who were ready and willing to come and whose settlement conditions were such that they could be accepted immediately, were it not for the fact they could not get transportation.

There was another vexing question, that of bringing to Canada the fiancées of Canadian overseas veterans. Priority had been given first to wives and children of Canadian servicemen rather than to the fiancées.

"There has been an indication given that the Scandinavian Line are going to send some vessels and also the Holland-American line. But these ships may convey only a very few of those who are on the continent now. We have about 2,000 fiancées and dependents. They have no transportation as yet," said Mr. Glen.

To those who said Canada had closed her doors tight on admissions to this country the minister pointed out that this country had taken in 4,000 refugees from Great Britain during the war. In addition arrangements were now under way to bring in 4,000 Polish soldiers from Italy who would be apportioned throughout the Dominion in agricultural areas.

WILL USE BOMBER

To Carry American Mail From Vienna To Udine, Italy

UDINE, Italy.—With machine-guns loaded and uncovered, a United States four-engine bomber arrived here from Vienna with a cargo of mail and freight—the first American plane to fly the normal route from Vienna since the Yugoslavs shot down two transports earlier this month.

The pilot said he had orders to fly to Udine and back. It was reported here that a flying fortress would henceforth make the run daily.

GLOSTER METEOR

Plane That Crashed Near Sudbury Dived Into Mud

SUDBURY, Ont. Jet motors of the Gloster Meteor plane which crashed in Helen Park lake, 80 miles west of Sudbury June 28, were embedded 14 feet in the mud of the lake bottom, Royal Canadian Air Force salvage officials said.

When the jet plane, piloted by Ftl. Lt. W. Mackenzie, St. Vital, Man., ditched in the lake, the nose with the motors dived into mud at the edge of a sandbar while the tail assembly remained above water.

TEACHERS' ORGANIZATION

ENDICOTT, N.Y.—Delegates from 28 countries, including Canada, created a world-wide organization of teachers. The delegates chose as the name of the group the World Organization of the Teaching Profession.

IRAQ'S BOY KING VISITS LONDON EXHIBITION—His Majesty King Feisal, 11-year-old king of Iraq, was just like any other youngster when he visited the British Motor Industries London exhibition. He was all eyes for the 50 perfectly-made scale models on display. He gazes at Golden Arrow model.

RIGGING AT TRIESTE—When Yugoslavs and demonstrating Italians clashed in a two-hour battle in Gorizia, in the disputed Venezia-Giulia district, near Trieste, civil police had to use tough tactics to subdue this riot. Bombs were thrown into crowd and at least 30 persons were hurt.
